Mike Harding was a comedian in England btw - aka the Rochdale Cowboy :

He still is , AFAIK. He also writes a monthly humor column for Fly Fishing and Fly Tying (The British Magazine, not the American one of the same name.)

I thought Lawton had a lot information, but that it was not well organized. Worth reading, but only after you'd read some of the others.

The Essential Skill DVD is great, but it's part of a series by Edwards with the same name. The volume of interest is *Wet Fly Fishing on Rivers*. A lot of it is out on YouTube, but is definitely worth owning.
