URL:

Just got done at the Conewago at the end of a hot day. Fished from about 6:30 - 9:00 pm. Didn't have much action until about 8:15, then they really turned on. Only had 3 in the first two hours, but the last 30 mins were unreal. Finished with 15, mostly on a black bunny clouser. Biggest was about 16 inches. Go summer.
