I wasn't aware of the stocking, as I'm very new to the stream. I caught it upstream of the sawmill in the last riffle before the very slow water. I wasn't aware of any postings but this is as far as I have fished. Can you provide more detail as to where the posted land is?

About 50 yards above where you caught it. I believe the flat deep pool is off limits The property changes hands right around there where the cornfields start.
