I'm gonna be chasin some smallies on Saturday. My WW flies are dangerously low at this point. I'm even out of wooly buggers.

Here's a fun project. Using the following materials, that I have plenty of, what kind of fun things would you tie up!?

- 1-lots of turkey feathers (thanks to BradfromPotter)
- 2-Zonker strips-white and black
- 3-Chennille in yellow, brown, black, and olive
- 4-Maribou in olive and brown
- 5-bucktail in chartruce, yellow, white, and olive
- 6-led eyes
- 7-various big hackles in black, brown, and grizzly

What kind of fun stuff would you attempt to make from this limited list of supplies? I have no beads (Shakey told me it's bait fishing if I use beads).
