thanks guys gfoledc sent me one to repair and try out. and the day before that arrived in the mail, i found my lanyard string for a litle fly box the mrs n kids got me for xmas, though the only way to hold tippet makes the around the neck part too short so rebuild/repairing that one i just got is on the project list for the weekend, along with a full rod build, a rearranging of another rod to make a muskie stick, and rebuilding a surf caster for one of my tenants. fun weekend of fishing based stuff but no fishing. 😊
