My advise is to go with a guide at least once. I went with a guide last year after going to Erie for 5 years and I found I learned more in one outing than o had in the 3 years prior. after I went a few times I started getting complacent because I wanted easy. you go with a good guide and they're gonna show you a lot more water is up there than you realize!

Patrick C is the guide I went with. Definitely give him a shout you will be glad you did. we fished all over and I got to see some very good water. oh yeah, we did finish the day well into the double digits!
