On really hot days, I take a big big drink of cool water before even starting to walk, I'm talking about 10- 12 oz. Then I don't have to carry as much water, but I do carry at least 24 oz.

I like the cat crap too, For those that don't know, the stuff really works

When it's really hot I like to wet wade and I've been known to go for a swim on any provocation, or fall in 3 times in one day, HA HA!

Get on the streams early, and leave during the hot part of the day. If it hasn't rained in a while, plan b is a spring creek.

Don't wear cotton, I learned that ages ago.
