If I could pick just one river to fly fish for WW game fish for the rest of my life I'd take the "J" without hesitation.

Amen. I spent countless hours on the J when I was at college in Huntingdon. Became very familiar with the stretch from mt. Union up to the confluence at Alexandria. Mostly spin fished at that time, but had many days with similar results as the OP. Even hooked into a big 20 inch brown on a green tube all the way down in huntingdon in early spring. Your report took me back to those days!
