Its only a five hour drive for me. I can start at midnight and arrive just before sunrise...fish all day and drive back - get home about 11:00 p.m. If anyone is really interested in getting a workout - we can alternate being a netter. "Snaggers need not respond".

Also if you go and spend the night in a tent you should make sure you get one that has an electric outlet. Having a heater makes a big difference in getting a good night's sleep.
