I prefer to stay out of this bashing and really could not care less about what others think. I will chirp in for Gaeron, but will advise him to just let it be, because it is pointless. Other than Harman's all other comps I have been a part of or have seen go on, are on wild trout water. Spring, Lacky, Nine mile are wild trout. Nine mile does get stocked, but the comp was actually used to get data on fish amounts for Catch and Release designation. There might be comps held on public waters that have been recently stocked, but not stocked for the comps. I can not speak for the southern waters, but we in the northeast are lucky to have vast quantities of wild trout waters to compete on. If anybody is actually interested in learning more or have questions, feel free to pm me.

Have fun with the #censor# show.
