As far as the Conewago in York county goes, focus on bridges. There aren't a lot of public access points along the creek, but there are some pull offs at the bridges (295 bridge and kunkles mill are a couple). Have you tried your own back yard at the swattie yet? One of the best smallie creeks in the area IMHO, and has good access from Hershey to hummelstown and all the way down to Middletown. Good luck!
