I've been there with my nephew 4 times since mid June. I need some type of hint.

Fewer herons? More hotties on the jogging trail? If I remember looking at the gauges, they didn't blow out the river (like they usually do) prior to opening the lake. They built something large down near the paper mill. More suckers and fewer carp than in years before. More mosquitoes than any place I've fished in last 10 years. Am I getting close or am I just oblivious when I'm fishing?
