[quote]Saw some nice native browns (15"+) and lots of RT that were of good size (12"+),and many small native browns.Of interest were a few RT that the workers said were native (8-10")

So who's gonna be the first one to break the news to him? Lol just messin with ya. Sounds like the stream's in great shape.[/quote]

Yes it's still a fine stream with a good population of trout.But I have been fishing this stream for 60+ years,and as good as some think it is now it was much better in the 40's,50's,60's,and as recent as 10 -15 yrs ago,believe me when I tell you it was a "premier" trout stream in the past.

PS: Just noticed you're from Ohio,that would explain your thinking as chances are you have never seen the LL,now or in the past.
