Brookies and gelato

Somerset County yesterday.

You try to not forget your Adams, the nondescript Michigan pattern and down wing Caddis you tied last night.

Soon you walk absolutely undisturbed stream.

Within 2 hour catch bass, few Brookies and surprisingly the Brown Trout after maintaining one perfect drift through the shady pocket.

In the split of the second the silver flash and vigorous bend on your bamboo rod with a little wild creature you are never bored to watch over and over.

On the way back when you feel a bit “space” you bother recollect your knowledge and observation to stop at the cold beer store or home made gelato.
