i go to pulaski and yes last years run was EPIC. if you go consider fishing thr Douglas Salmon Run, it is a pay access area but it is the first 2.5 miles of the river and the fish are fresher, havent seen tons of flies thrown at them and the crowds are half. the rest of the river will be crowded, go on you tube and look up town pool and u will see. the prime holes will have guys sitting in them by 4:30 in the morning. im going last week of september. Best fishing for salmon up there is last 2 weeks of Sept and the First 2 Weeks of october. Steelhead start coming in around late the first week of October. Look for a room now if you are going to stay the night as they will be hard to come by
