yeah, all of them. Seriously just keep exploring. VC is a touchy subject on this board especially when it comes to divulging information.

No, not really. I've always found the best fishing from Chesterbrook on up stream. You can get into some nice water from Bradford Rd, about oh, maybe a mile from the entrance of Chesterbrook. There are also some nice spots up in Malvern (Rte. 29) (happens to be a open space / park area there - at least that's what was the last time I was there).
