I think I'll give them a shot. If I order 3 or 4 packs to try them out and I don't like them I'm only out \$10-\$12. If they are too heavy I can use them for nymphs as was said. I do like the tmc and mustad hooks and that is mostly what I'm using but \$5-\$7 for 25 hooks is a lot. I got some eagle claw laser sharp dry fly hooks on eBay a while back and did like them(\$6something for 100) but they seem to be hard to find in smaller sizes. Thanks
