A fisheries management change occurred this spring in the Tulpehocken DH area. Did you notice anything different from recent past years' fishing experiences vs this year's experiences. Were catches or catch rates worse, better, or the same? If your response depended upon the general location, then feel free to break it down into two stretches.....1) Rebers iron bridge upstream to Blue Marsh Dam and 2) Rebers iron bridge downstream to the covered bridge.

Thanks. Yes, I will reveal the difference after the responses are in.

Anyday now.
