Hello,

Just noticed the thread on our hooks. "nymphingmaniac" is 100% right. My team now has made my job easier and we concentrate on customer service. I want to personally thank you for giving us another try.

Our hooks have grown so fast in volume over the years. We have completely moved out of China and the quality has reflected that. Our hooks are now produced in Korea and Japan. We are still cycling out some of the lower volume China hooks, but those are almost gone now.

If I can help with anything, please let me know.

Thank you,

Justin
