Quote:

After "identify," comes "compare and contrast" in the scientific method.

What scientific method are you using?

Jack's Scientific Method.

Quote:

1. Formulate question.

Who chooses the words for the question? The formulator, I would surmise*.

Quote:

2. Form hypothesis.

In other words, depart from reality and surmise**. Or, postulate a reality and try to support it by observations.

*Definition of SURMISE

: a thought or idea based on scanty evidence

** See above.
