Thanks guys, I'm glad I asked cause I was thinking like \$40 per guy if we were happy..... these guides work hard (at least the one I've had) don't want to be cheap!

As for not tipping at all... maybe a comment to stir the pot, but it's the accepted business model, just like tipping wait staff...

When you figure in gas, time, shuttle, flies, gear, boat maintenance I'm surprised these guys even do it for what they charge
