Caveman, quit trying to scare the poor bitten guy!

I for some reason seldom get the enjoyment of beautiful music buzzing around me or tipping my waitresses with fresh blood.

They did have on the news that people with O Positive blood get bit more often than the other blood types.

Judging by the number of bites you must be O positive. as in ...O #censor#.....Ouch.....OMG

Having a good amount of Vitamin E in your system works wonders. But don't overdue it - it will give you a rash in them cubby holes (armpits/crotch). Also, bugs are attracted to aftershave lotions and other scents.
