I love fallfish.

Did he really just say that? 😄

Fall is my favorite time of year to fish too. Trout streams are cool enough to fish again, and the more steady rains of Fall often start to recharge their flows. WW fishing is usually still pretty good until the first frost or so too. I try to save my days off each year to take as many Mondays in the Fall as I can. Stay up and watch Sunday Night Football, sleep in a little, then fish on Monday...maybe sneak in the occasional Fall 18 holes as well.
