Hmmm. Bowhunting or Flyfishing? I really enjoy both of them and there just doesn't seem to be enough time during that short window of opportunity in the fall to get it all done. For the past 20 years my week of camping/bowhunting in West Virginia is my big bowhunting excursion. Last year I had a blast fishing for Brookies during early October. What a great time of year to be in the woods and on the stream. I guess I will just try to do my best enjoying the best of both worlds.
