As I have started really obsessing over flyfishing as I have done the last 12 months or so, I keep questioning my decisions to hunt vs fish. I think I'll fish more this year than last but I still think that as September rolls in I'll be shooting the bow, getting stands ready, scouting, etc. by the way Md bowseason starts in early September! I have also obsessed over free-ranging sika deer on the eastern shore....in a word: awesome.
