I purchased this pack a year ago. It is in excellent shape. You can read about all the features on the fishpond site. If you are looking for a very comfortable pack that can hold multiple fly boxes, rain jacket, water, lunch, and have multiple loops and rings for attaching accessories, then this pack is for you. It retails for \$190, I would like to get \$95 for it. Its a year old and in like new condition. Fishpond products last forever. I am willing to ship.
