Plenty of water on Elk to catch good fish. Those FishErie Maps that were already posted are a great resource. I have a set I laminated & keep with me when fishing Erie tribbs. I use a pen or marker to document specific notes. Lake Erie Ultimate Angler is a great fly shop & the guys are quite informative. Give them a call & they will give you some good info. The owner, Steve, is a great guy & had the chance to fish with him a few times. He taught me a lot about steelhead & smallmouth fishing. Steelhead season is just around the corner!
