I highly recommend Pat from FOM guide service.

I have been going to Erie since 2006 and learned more from him in one day than I did on my own. He'll take you wherever you want and the best part is you can get there again because it's public. Better than that is the tips and tactics you'll learn. tell him to bring his rod and watch him in action. he'll protest bringing his rod but tell him you want him to. I learned a ton by watching him fish. just be ready to move! LOL!
