I am a fly fishing guide in Pennsylvania and I cannot even comment on the tipping but I must say I find it extremely embarrassing to stiff somebody on a tip. I have told quite a few friends to take a hike after going out and seeing how cheap they are. I really like cheapskates said nobody ever!

On a side note, I saw someone say that weed or booze would be good enough for a guide.... if it were me and you offered me weed or booze, I would throw you out of my car while it was moving and not even look in my rear view mirror to see if you were okay. I swear there is a Forrest Gump saying about you out there somewhere, lol.
