I would like to thank Ed and George for another fine event. I had a great time even though the trout did not like my Trico pattern. My size 16 beadhead inchworm,caddis larvae aka green weenie seemed to work well. LOL The food was first rate as was the company. I look forward to more get-togethers in the future. See you all on the stream.

Seeing that I could n't get any interest from the trouts in my offerings what is the formula for that green weenie ? Cathy indicates she had some luck with it also.

Other than the fact that I did n't play with a single fish I still had a great time mingling with everyone there,great bunch of people and looking forward to doing it again next year.
