Backpack?

I need some suggestions for a backpack. I'll be going to school in ithaca, NY in about a month, and I need a convenient way to carry all my gear (including waders and boots) from my dorm to the water. While the sage typhoon pack looks amazing, the price tag was just too steep for me. Can anyone recommend a backpack that has similar features that could fit a college budget? It doesn't necessarily have to be for fly fishing I guess but I'm a little overwhelmed with all the options out there. I liked the orvis safe passage tri-pack, but it doesn't seem to have the storage for waders/boots.
