Shane, we can debate East vs West over an adult beverage or two.

PWK, Nope, those fish ARE brightly colored. I've got the chrome ones too. They seem to be from the deeper, slower water. They look like Delaware Rainbows in 3/4 scale. I've seen several colored fish now, but I think they all came from broken water. Interesting!?

Kray, call me when you get back and we'll work something out.

TDB You just keep thinkin' that LOL!

Turkey, DON'T post any pictures in the "Hatch " forum!
