My go-to steelhead flies are:

- sucker spawn (cream, pink, yellow, blue) sizes 12-18
- Crystal meth (chartreuse, pink, white) sizes 12-16 - both with & without a beadhead
- Pheasant-tail nymphs size 12-18
- hares ear nymph size 12-18
- Emerald shiner streamer pattern size 6
- Woolly buggers - black, white, olive
- Glo-bugs

I have a variety of other streamers & some scattered nymph patterns that I use too. But that list above is probably what I catch the majority of my fish on. I hope you have a great trip, it's addictive!
