Six Gun, thanks for your service. The closest stream to Lock Haven that is a decent size and mostly on state land and fishes well in the fall is probably Lick Run near Ferrandsville. It's just north of Lock Haven and is almost entirely in State Forest. Wild Browns and Brookies are both fairly common. I spent an afternoon there last fall with friends and had a blast.

My favorite rod for this size stream is a 4 wt. 7 1/2 foot.
