Bowhunt the first weekend while they are still doing the summer eating habits, corner of field stuff. Then they get all weird, and go nocturnal and move around funny all october, so while that is happening i hit the small game and do some fishing while the fish are putting the feedbag on before winter, then hit the treestand hard for the rut, then wait until after christmas and hit the small game again with the rabbit dog.

At least in a perfect world that is how it goes :)
