It'll be fine. Was there last weekend. No issues right now. Take advantage of it before the weather turns again.

Ditto. It'll fish just fine. If it should get hotter that what their calling for go early take a break then go late. There has been plenty of cooling rains and the air temps have been summer like but not outrageous. Have fun. We usually spend this week up at camp and hit the Huntingdon county fair with the Gkids and I fish the area hard but With the shoulder surgery I can't even use a fly swatter. I'm a little bummed. Good luck, have fun.
