Thanks Evan. It's gonna be a long road. Rotator cuff.... I'm into the physical therapy stage of things but, it's gonna take a little time. I've abused it for just shy of 53 years. I guess I can take a little time and heal up for a while. Maybe I'll be good to go for another 20 or so. Thanks again. Have fun. I usually start on the LJ at the parking lot at Barree and head up as far as I feel like. I just love that water. I am always amazed at the fish I catch there. As far as flies go. This time of year I usually hit um hard with hoppers, hornets, Terrestrials. Last time I was up it almost didn't matter what you threw at um they were eat'n damn near anything. On top and down below. I hope you have the same kind of day. Good luck.
