Just curious, is there a lot of fish by the allenberry? I fished it today and wasn't much going on. Struggled to get 3. **Some were rising on something microscopic.**

Ed Koch wrote an entire book ("Fishing the Midge") on fishing and tying midges, mostly from his experience fishing the Yellow Breeches. Just about 365, you can find trout midging in front of Allenberry.....go small or go home.... 😊

Give it a try....it's fun.
