Moving away from the great lakes and would like to pass this swinging setup on to someone else. I have also used this on the Allegheny and Clarion. Could also make a great surfcasting rod with new line.

12'6 6wt 4pc TFO professional two-handed rod

- used for one season- cork shows some wear, very clean blank

- factory tube and sock

ElkHorn T-4 Mid arbor

- normal nicks on the spool, reel has been consistanly cleaned and greased

- pewter color

- 3.9" dia with cork drag reel

reel spooled with backing and Rio powerflex core shooting line

450grn SA skagit head

-27'

I only fished it a handful of times in the last year, worked great for the Allegheny and Catt. Just need cash for trout gear since I am moving to State College in the fall. Looking for \$255 OBO+shipping costs.

Now also for sale is a Cliff Intruder box, filled with intruders and swinging flies. I paid \$50 for it, will take \$40 plus shipping if you need it shipped. Haven't counted the flies but atleast 20+. I can get an exact count if needed. All quality hooks as far as I can tell. Willing to combine with the rod/reel outfit as well.

Would be willing to combine all for \$280+shipping.
