Karl Lutz from PFBC valiantly led a group of FIVE, yes only 5 determined Doc Fritchey Chapter members. We were able to construct a single log/rock deflector and cleared some lanes in blow downs to allow the small groups who float stock the DHALO section more readily complete thier task. Picutres have been posted on the Chapters Facebbok page and will be posted on the website at www.dftu.org. All the volunteers were extremely frustrated by the fact that on 5 people from a Chapter of 400+ members were able to tale 4 hours to help with the project, but good work was completed none the less.
