I fished the south platte below 11 mile canyon a couple of weeks ago. Loaded with bows, browns, and cuts. Caught the trifecta after 3 hrs on the river. Lots of public access and gorgeous scenery. Its not too far from Breck. Just take 9 south. Also, I caught 90% of my trout on dries. Don't believe the hype that you have to nymph in Colorado to be successful especially if you fish until well past dark. If you go, bring that camera or you'll regret it. The boulders and road tunnels are stunning.
