hbgbswanson,

Those are a size 5 #8080 mustad. a sz. 6 will do in a 3407 mustad. all flies should be tied from a 6 to size 2. in the later season (striper, big blues, etc) then 2/0 - 6/0 flies will work. Albies like small hooks 1 and under.

osprey,

those squid are tied on a mustad 34077 sz 3/0 (very rare hook, curved shank), they wobble when stripped to a degree. nice action.

LV2nymph,

rattle - rattle
