I doubt PFBC stocks it in that stretch. The Toby gets stocked from the same truck that stocks the Lehigh. The couple times I helped stock, the Toby bound trout were taken out of the PFBC truck and put into a large plastic tank on a pick up truck and those trout were bound for the DHALO section of the Toby.

I never followed them (no one did) so they could have been dumped anywhere.

The stocking particulars may change from year to year but the Preserve is a pretty good distance from the Gouldsboro meet up spot for stocking.
