I also liked the Frying Pan and would recomend the Roaring Fork at Aspen.

I have a suggestion for packing, if it is not too late.

The air in Colorado is very dry. I would take 2 to 3 pairs of river trunks (ie: swim suit with pockets) and 2 or 3 of the wicking type tee shirts along with a little laundry detergent. After you take a shower wash out the trunks and shirt in a sink and then lay them out in the back seat of your car and they will be dry by lunch.

Just a thought to save space and weight to make room for fishing gear!

Everywhere you look will be like a post card so take lots of pictures.

Martin
