How do you like the griffin vise? On my cheapo vise, I'm having trouble keeping anything smaller than a size 18 on the vise. Does this work up to 24-26?

Also, would you want check, paypal?

Can you please hold for me pending those answers?

EDIT: Did some online research and sounds like this would be great for me, and your price is amazing. Let me know how I can pay via Private Message.

Thanks!!
