Species mentioned by OP and 8wt or 9wt best choice between the two weight rods:

bonefish 8wt

snook 8wt

bass 8wt

shad 8wt

steelhead 8wt

stripers 9wt

salmon 9wt

I guess it depends how much fishing you will be doing for each species. If it's just a trip or two for Salmon and Stripers maybe consider an 8wt.

I've caught all of the above species on an 8wt including stripers and salmon (and they didn't seem to mind a bit)....
