General questions here.

Im ending my 4th year of Fly Fishing Trout here in PA and ive had some question on Worms and Buggers.

Keep in my mind i still buy my flies haven't gotten into Tying yet maybe at another time.

What size do you guys fish the most effectively?

What Color?

What material is the worm made out? (mine are felt looking ive seen wire worms)

Honestly in the time ive been fishing ive never caught a fish on a worm until this year got 3 so far 2 3 with a Bugger. I don't know if im using 2 small of a fly, wrong color or my design im buying just blows. I here people saying how great they are.

So lay the advice on me im ready to learn.
