If i lived in Lewistown I might be in divorce court after 3-4 months! My wife would have to bring our children down to the Juniata every evening in July, August and Sept (maybe even Oct) just to see daddy. During the colder months I would be harder to find on all the top-notch trout creeks.

So best if I not move there.

I floated the Juniata in mid-july from River-access road to PA boat ramp 6 miles downstream and had a ball! good fishing, bald eagles flying around! I hope to get a day in Sept to float same stretch again.

Have fun fishing!
