Thanks for the advice! I'll actually be there for quite a while so my plan is to get a guide for one trip early on and then learn enough from him to do some of my own fishing the rest of the trip. I've also heard the canals within the island hold smaller 20lb tarpon. From snorkeling I know the 100lbbers are all hanging under docks but I'm not sure I'd be able to get them to bite or even land one if I did manage to hook one.
