And, the lake temps matter as well.

So, pay attention to this:

[http://www.glerl.noaa.gov/res/glcfs/g ... ke=e&ext=swt&type=N&hr=00](http://www.glerl.noaa.gov/res/glcfs/g...ke=e&ext=swt&type=N&hr=00)

Right now the shoreline temps are still at 70F or above. There are some fish staging based on daylight etc, but they will really ramp up when you see these temps drop.
